**CONTINGENT ASSIGNMENT OF PATENT
APPLICATION**

Docket Number: 11419-700.200

This Contingent Assignment of Patent Application is between: **Scott B. McClellan** of Park City, UT; **Patricia M. Moulis** of Ann Arbor, MI; **Annette M. L. McClellan** of Park City, UT; **Thomas G. Taylor** of Salt Lake City, UT; and **David L. Wells** of Toronto, Canada (hereinafter referred to as "Inventor") and **InVectus Biomedical, Inc.**, a corporation of the State of Utah, having a place of business at 1920 Roffe Road, Park City, UT, 84098 (hereinafter termed "Assignee").

WHEREAS Inventor has invented certain new and useful improvements in:

"METHOD AND SYSTEM FOR INTERNAL LIGATION OF TUBULAR STRUCTURES"

for which United States Patent Application, Serial No. 09/712,408, was filed on November 14, 2000 and from which United States Patent was issued on **May 24, 2005**, Patent No. **6,896,682**.

WHEREAS, Assignee is of the view that it previously acquired the entire right, title and interest in and to said patent, said application and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered by said Inventor (all collectively hereinafter termed "said invention"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the United States and foreign countries.

WHEREAS, if and to the extent Inventor possesses any residual right, title, and/or interest to said invention or application, Inventor is desirous of assigning any and all such residual right, title, and/or interest, whether now existing or arising in the future, to the Assignee.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said Inventor to have been received in full from said Assignee:

1. If and to the extent Inventor possesses any residual right, title, and/or interest to said invention or application, said Inventor does hereby sell, assign, transfer and convey unto said Assignee the entirety of any such right, title and interest, whether now existing or arising in the future (a) in and to said application and said invention; (b) in and to all rights to apply for foreign patents on said invention pursuant to the International Convention for the Protection of Industrial Property or otherwise; (c) in and to any and all applications filed and any and all patents granted on said invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a divisional, substitution, continuation, or continuation-in-part of any of said applications; and (d) in and to each and every reissue or extensions of any of said patents.
2. Said Inventor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and foreign countries. Such cooperation by said Inventor shall include without limitation (X) execution of any additional version of this Contingent Assignment of Patent Application after the date hereof at such time as the Assignee may request and (Y) prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of the said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation reissues and reexaminations, opposition proceedings, cancellation proceedings, priority contest, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.
